THE FINANCIAL situation is unchanged. The general tone and feeling | Illinois, will have been resped and way of discounts—nothing at all equal looks unusually thrity and strong, and Union Pacific sinking funds, 913. to both the willingness and capacity of promises a good yield. Grass, too, looks financial institutions to accommodate; so says a St. L. u's paper, and its words answer just as well for Memphis as for that city. The Unicago Tribune correctly remarks: "An interesting illustration little doing; wheat in small receipts; of the close interdependence of modern communities is seen in the identity of the fluorial situation throughout the world. Time loans, running over a period of three or four months, are offered at 3@ 34 per cent, so general is the belief in the continuance of the present easy con-dition of the market. The rates of ex-change at nearly all of the southern western money centers continue in favor of the flow of currency to this point, and the banks are overstocked with money, for which only a limited employment cas be found. The offerings of commercial paper are small, and the best grades are quickly absorbed, rates remaining at 4@54 per cent." Exchange is steady, with little doing at par buying, I premium selling on New York; on New Orlsans I discount buying, par selling. Gold was again lower in New York, quoting 112 at noon, it had been down to Illi; here the offering was 111@1111. The Chicago Tribune says: "A large part of the silver already in circulation is the old coin which has come in from Canada, from California, out of old stockings, etc., which shows that the people have made up their minds at last that silver is no longer worth hoarding." They are silly enough to hoard down this way, although the market price of the silver they keep is less than that of the greenbacks they pay away. The New York Herald of Poursday reports: "The following are the rates of exchange on New York at the undermentioned cities to day; Savannah, i per cent. premium; Charleston, selling i premium, buying i premi-um; Cinciansti, easy, par; New Or-leans, commercial i, bank i; Chicago, 25 cen's discount, and St. Louis 75 to 100 premium" Nothing stirring in scrips or stocks; some Memphis gas stock is on the mariet, but received no

GREAT

AT THE CELEBRATED ROCKBRIDGE ALUX SPRINGS.—Owing to the depressed condition of the country, the proprietor has determined to lower his charges, that all may determined to lower his charges, that all may be able to derive the benefits from the use of these justly celebrated waters. They need no recommendation, since they have an fully established their # Belency through the theorems ands who have been brought from death a door to renewed health by the use of their wonderful medicinal waters. Since last summer the Chalybeau spring, which was opened last year, has been thoroughly analyzed by Professor M. B. Harden, of the V. M. I., of Virginia, and by comparison shows it to be fully as strong as "Rawiey" of carbonate of fron, having a small quantity more than one and a small quantity less than the other two springs. So in addition to the water that has boade these springs so famous, the proprietor springs. So in addition to the water that has noade these springs so famous, the proprietor takes pleasure in announcing that he can furnish those who may need to drink either separately or in connection with the more celebrated waters of these springs a pure carbonate of iron (chalybesia) water, inferior to mone, and equaled only by Rawley, in this State. This at the very cheap rates, with accommodation fully no be any prayions year.
